## HOW TO USE THIS DIRECTORY

---

### WHAT YOU'LL FIND IN THIS DIRECTORY

---

This directory contains a listing of doctors, hospitals, medical facilities and pharmacies available to you. These medical providers specialize in the treatment of Workers' Compensation injuries and illnesses. You should use the information in this directory to help you select a medical provider after you have sustained a work related injury. The directory will identify the name, address, telephone number, and specialty of each medical provider to assist you in making the right selection.

### FINDING A DOCTOR

---

To assist you in making a selection, this directory has all the medical providers listed in four sections. The first three sections of the directory are broken down into three categories: Hospitals, Medical Providers and Pharmacies. Each section is sorted by medical specialty. These sections will assist you in identifying the medical providers closest to your home, work or other convenient location. The fourth section of the directory is an Index which lists all the medical providers alphabetically so you can quickly identify the medical providers that have the expertise to treat your work related injury.

### WHERE TO FIND MORE INFORMATION

---

If you have questions about this directory, selecting a medical provider, or your workers' compensation claim in general, you should contact your employer or your Claims Case Manager.
